Objective

Final-year Computer Science Student with hands-on experience building scalable, production-grade software solutions across full-stack environments. Skilled designing modular applications and implementing secure backend system. Passionate about writing clean, maintainable code and solving complex engineering problems.

Experience

IIT Bombay TIH-IoT Foundation

Team Member (Mumbai, Maharashtra, India)

- Developed a Bluetooth smart charger prototype and mobile app for automatic control, theoretically reducing overcharge risk by 85% and extending battery lifespan by 12-24%, while decreasing battery swelling risk by 90-95% and eliminating manual unplugging (Team of 4).

SkillDzire

Virtual Intern (Hyderabad, Telangana, India)

- Developed a Python Based ML Sentiment Analyzer prototype, streamlining product review analysis for quicker customer insight, and accelerated foundational ML understanding in 50% of the typical training period.

Certifications & Achievements

SkillAP Certification

- Advance Python Programming:** The program provided practical exposure to real world problem-solving techniques, enabling the development of strong programming fundamentals and advanced python libraries in python.

Google Cloud Certification

- Introduction to Generative AI:** Completed coursework and lab simulations in Generative AI, gaining fundamental knowledge for innovative AI solutions including prompt engineering in Vertex AI.

Education

B.Tech in Computer Science and Engineering

2022 – 2026

Ramachandra College of Engineering, Eluru

Projects

Smart Social Discovery and Knowledge Sharing System

- Built KONNECT, a real-time social platform that connects nearby users based on shared interests, improving meaningful interactions, engagement, and knowledge sharing through an intuitive and user-friendly system.

Code Compiler

- Developing an Online Compiler with user interactive system for seamless code execution, integrated with java and python modules, and data visualization for Python.

Skills

Technical Skills: Python, Core Java, JavaScript, React.js, SQL, MongoDB, Git, GitHub, VS code.

Soft Skills: Teamwork & Collaboration.

Hobbies

- Watching Anime in my free time.
- Exploring new technologies.
- Learning Japanese.
